

Trinity Precision Inc. produces aircraft components for commercial, private, and military programs.

We are dedicated to producing quality parts on-time to support our customers' needs. This requires:

- A company culture devoted to ethical conduct to ensure the safety of our families who fly and our military.
- Every member of Trinity Precision strives to produce a more perfect product knowing that it increases our value to our customers and keeps our airways safer.
- As a trusted Trinity business partner, we expect the same level of commitment from your team as we hold ourselves to.
